

Air1 is the station my family and I listen to everyday. I have 3 teens that once listened to Rap and music that sang about murder, sex and drugs. Our children need to be able to hear music that doesn't corrupt their thoughts. Music is vital in children's lives and they need positive influence's, not go out and kill a cop or be a drug dealer and have a mercedes benz and all that. I love Air 1 and would be very disappointed if it were not on as I drive to work and listen at lunch break. It is uplifting and our community needs to keep this very important part of our daily lives. I have worked with youth in our community and know for a fact that this station is very much appreciated by our kids.
